

Sample Sims 4 in-game item descriptions.

Working with a 30 word limit.

Item Name	Type	Description
Chillax Technologies Fridge (Used)	Fridge	Sure, the doors are held on with far more tape than intended, and there's some exposed wiring at the back, but it's an entirely adequate storage solution for your foodstuffs.
Longevity Lounger Chair (Used)	Armchair	Battle hardened by innumerable yard sales. It might not be the most pristine place to plant your posterior, yet it's somehow one of the comfiest spots on the planet.
Fun and Run Desktop	Computer	Riding those world wide waves has never been so efficient or cost effective! A budget busting all-rounder. Just what you need to succeed in this scary and interconnected modern world.
Contradictive Mirror	Mirror	What good is reality if it cannot be thrown into disrepute or questioned? This hand-crafted mirror asks the tough questions. Do not stare into it's depths. That way madness lies.
SleepDive+ Bed	Bed	The result of intense scientific research, guaranteed to give you the best sleeping experience of your life. Enhanced by Deep Sleep+ technology with advanced Soft-Touch memory combination, gold foil mattress.
Testament Bookcase	Bookcase	Command a living space with your unbridled intellect, showcasing your presumed impressive literary collection. What does it matter if you've only read half of them? You'll get to the rest.
Sin Saver Rug	Rug	A rug that fits into a nice, unassuming design niche between entirely forgettable and only just noticeable. A perfect placeable to obscure those questionable and suspicious stains from casual view.
The Vault	Door	Your home is your kingdom, so protect it like a fortress. This reinforced, overly designed door will stop even the most persistent cold caller in their tracks.
Retro Vision TV	TV	Gets the old shows you love, just as you remember them. So, they're all in "squint to make sense of it" standard definition...but it makes you feel all warm inside.
Bink the Bunny	Children's Toy	This overly expensive stuffed animal, modelled after an impossibly large Flemish breed of rabbit, is surprisingly more intimidating than cute. Caution advised. May induce nightmares.
